# Riječ Dekana

Od rješenja cara i kralja Franje Josipa I., dana 4. listopada 1882. godine, kojim je osnovan „Farmaceutski učevni tečaj“ na zagrebačkom Sveučilištu, prošlo je 135. godina. Ova velika obljetnica prigoda je, između ostalog, i da se novom fakultetskom bibliografijom prikaže znanstvena, nastavna i stručna djelatnost Fakulteta u posljednjih pet godina. Nova se bibliografija nastavlja na četiri prethodnice: bibliografiju iz 1958. godine tiskanu kao sastavni dio spomenice „75 godina farmaceutske nastave na Sveučilištu u Zagrebu: 1882 – 1957“, bibliografiju iz 1983. godine u sastavu „Spomenice u povodu stote obljetnice osnutka studija farmacije na Sveučilištu u Zagrebu: 1882 - 1982“, te bibliografijama iz 2007. i 2012. godine, objavljenima u obliku samostalnih publikacija. Usporedbom sadržaja ove bibliografije s njezinim prethodnicama, opaža se da se broj objavljenih radova povećava s promicanjem godina djelovanja Fakulteta, što nedvojbeno svjedoči o znanstveno-istraživačkoj i stručnoj produktivnosti fakultetskih djelatnika i njihovom velikom nastavnom potencijalu.

Najsrdajnije zahvaljujem svim kolegicama i kolegama na suradnji tijekom rada na bibliografiji. Posebnu zahvalnost želim izraziti autorici, gospođi Petri Gašparac, prof., dipl. bibl., za njezin predan angažman u prikupljanju radova i njihovoj bibliografskoj obradi. Zahvaljujem gospođi Nadi Dogan, mag. dizajna, mag. ing. el., na dizajnu, a gospođinu Mati Markoviću na tehničkoj i tiskarskoj obradi.

# Predgovor

Bibliografija je nastavak bibliografije objavljene 2012. godine i obuhvaća radove djelatnika Farmaceutsko-biokemijskog fakulteta Sveučilišta u Zagrebu u razdoblju između 2012. i 2016. godine. Pri tome su obrađeni oni njihovi radovi koji su objavljeni u vrijeme kad su bili zaposlenici Fakulteta.

Bibliografske jedinice razvrstane su prema vrsti rada u sljedeće kategorije: znanstveni radovi u časopisima; patent; disertacije; znanstveni i stručni radovi u zbornicima skupova; stručni radovi u časopisima; knjige, udžbenici i skripta; radovi u knjigama i udžbenicima; uredništvo zbornika skupova, knjiga i časopisa; specijalistički radovi; popularizacijski radovi; te ostale vrste radova.

Unutar pojedinih kategorija bibliografske jedinice su poredane kronološki i abecednim redom autora. Svaki je rad prikazan samo jedanput, izuzev u slučajevima knjiga gdje je jedan od autora ujedno i urednik.

Bibliografske jedinice opisane su prema promijenjenim Vancouverskim pravilima citiranja. Promjene su bile potrebne radi potpunijeg opisa pojedinih vrsta radova i, na taj način, pružanja jasnije informacije.

Bibliografija sadrži imensko kazalo autora s naznakom rednih brojeva radova obrađenih u bibliografiji. U slučajevima dvaju autora s istim prezimenom i inicijalom imena, pridodavanjem drugog slova inicijalu imena postignuto je njihovo razlikovanje. Za autore koji su ujedno djelatnici Fakulteta u razdoblju od 2012. do 2016. godine navedeno je puno ime u zagradama. Kod autora koji su objavljivali pod više od jednim oblikom imena, u kazalu je izabran jedan oblik za jedinstvenu odrednicu, a za ostale je izrađena uputnica.

Upotrijebljene su sljedeće kratice i oznake: s.n. = sine nomine (nakladnik ili raspačavatelj nije naveden na publikaciji); [ ] = podatak je prepisan izvan propisanog izvora podataka za tu skupinu; et al. = et alii (i ostali); izd. = izdanje; cm = centimetri; ilustr. = opći izraz za razne vrste ilustracija: slike, crteže, grafičke prikaze, table, itd.

Najtoplije zahvaljujem kolegici Maji Fehir na pomoći prilikom prikupljanja radova.

*Petra Gašparac*
