| Verifikacija metoda genotipizacije polimorfizama u genima za CYP2C9 i CYP2C19                                                                                             |     | Radica, Katarina                                                                                                                                                                                                                                                                                                                     |                 |
| Ekspresija gena c-MYC u pacijenata s kolorektalnim karcinomom                                                                                                             |     | Mićan, Karmela                                                                                                                                                                                                                                                                                                                       |                 |
| Validacija metoda genotipizacije polimorfizama u genima za faktor zgrušavanja V, protrombin, inhibitor aktivatora plazminogena-1 i metilentetrahidrofolat reduktazu       |     | Bubnjar, Janko                                                                                                                                                                                                                                                                                                                       |                 |
| Ispitivanje interferencije askorbinske kiseline i glukoze pri određivanju analita u mokraći                                                                               |     | Mašković, Sara                                                                                                                                                                                                                                                                                                                       |                 |
| Polimorfizmi u genima za čimbenike zgrušavanja i fibrinolize, glikoproteine trombocitne membrane i intermedijarne rizične čimbenike u djece s ishemijskim moždanim udarom |     | Čeri, Andrea                                                                                                                                                                                                                                                                                                                         |                 |
| Utvrđivanje delecije H69/V70 u SARS-CoV-2 virusu upotrebom TaqPath reagensa                                                                                               |     | Novosel, Lucija                                                                                                                                                                                                                                                                                                                      |                 |
| Circulating Tumor Cells in Colorectal Cancer: Detection Systems and Clinical Utility                                                                                      |     | Petrik, József; Verbanac, Donatella; Fabijanec, Marija; Hulina-Tomašković, Andrea; Čeri, Andrea; Somborac-Baćura, Anita; Petlevski, Roberta; Grdić Rajković, Marija; Rumora, Lada; Krušlin, Božo; Štefanović, Mario; Ljubičić, Neven; Baršić, Neven; Hanžek, Antonija; Bočkor, Luka; Čelap, Ivana; Demirović, Alma; Barišić, Karmela |                 |
